Notes on why some items are useful:

Telephone & Mobile: You may not consent for us to contact you by telephone on a general basis but we may need to contact you without that consent if we consider it necessary in cases of emergency.

Email: Email is an efficient and cost-effective method of communication. However, unsolicited emails are a nuisance. We are under strict rules to only process you, in this case by email, when it is necessary for the business of Church life. By law we cannot use email to raise funds without your specific consent. We are very unlikely to even consider sharing your email address outside of the church and will always respect your privacy.

Gender: We cannot assume your gender and some modern forenames may not make your gender obvious.

Marital Status: We may wish to organise events aimed at this status such as for ‘singles only’ or to ‘renew marriage vows’. Rather than contact everyone we would only contact the relevant status.

Spouse or parent: It is useful for us to be confident of family connections to save embarrassment or inappropriate contact.

Date of Birth: Apart from the fact that we might want to recognise your significant birthdays, we may, like marital status, want to arrange age specific activities. If you are 90 and invited to the skateboard park, you might feel a little teased, on the other hand you may rise to the challenge.

How do you consent to being contacted during your association with the PCC of St Mary’s Church Purton? Please tick those you consent to.

I consent to the Church contacting me by letter ; phone including text message ; email .
I consider that I have sufficient information to make these my informed and explicit consents.
